### ROLES AND RESPONSIBILITIES OF ACCOMPANYING ADULT

- You will be responsible for possession and administration of all prescription and non-prescription medications the child may require.
- You will be first contact for a medical emergency, behavior problem, or any other concerns that may arise day or night in relation to the child and you will be expected to address the issue.
- Have said child with you during family time.
- We provide supervision for children in classes; during class time. You are responsible for said child at all other times.
- If you are the accompanying adult for a preschool child, you must provide supervision for them at all times. Unfortunately, preschool children cannot be accommodated in adult classes. If you have registered for a class, please ensure that they are in someone else's care while you attend class.

I have read and understand the roles and responsibilities of an accompanying adult at Trollhaugen Camp as noted above and agree to those responsibilities.
